Sir,

I have the honor to represent that the Medical Officer in charge of the Chemical Laboratory, Victoria Hospital, is frequently being asked to make blood and other examinations by Medical men for their private patients. He is not called upon to do this gratis, so I would suggest that he be permitted to charge a small fee for each such examination, say Rs. 3/-, remitting 5 per cent of the total fees received to Government in lieu of materials used. This is customary in all such laboratories.
